DEPOSIT & TUITION PAYMENT

Welcome to UCO!

All new international F-1 students will need to have at least \$9,000 dollars ready for the first semester. Students intending to study at UCO are required to pay this tuition deposit either before coming to Oklahoma or upon arrival. This deposit is for your educational expenses and cannot be used for off-campus housing and personal expenses. Students should also bring additional funds for living expenses for a minimum of one semester. The tuition deposit will remain with the university until it is exhausted from its intended use.

The tuition deposit may be paid using a money order, credit card payment (additional fees apply), wire transfer, or online through our international payment solution, [Flywire](#).

When you are ready to make your tuition deposit, please visit the [Flywire](#) site. When making your deposit you will need to know your UCO student ID number.

UCO has found that students who have paid all or part of their tuition deposit in advance are much more successful when meeting with the US Embassy and obtaining their Visa. For this reason, UCO requires that students from Nigeria and other countries with high levels of embassy denials pay at least \$3000 of their deposit before an I-20 is issued.

If the student is unable to get a Visa, or has a change of plans and is unable to attend the University of Central Oklahoma, this money will be refunded back to the student, minus any bank processing fees. Please email your admissions advisor if you have any questions about the refund process.
